FLEXIBLE BRAKE HOSES

Brake hoses can harden and crack or bulge with age, but there is often damage that's hidden inside. Partial blockage can cause your brakes to pull to one side or to drag (fail to release). It makes good sense to replace hoses frequently.

BRAIDED STAINLESS STEEL BRAKE & CLUTCH HOSES

FOR ALFA ROMEO AND FIAT

Why do racers love stainless steel brake lines?

Because they expand less under hydraulic pressure, giving a much firmer pedal with more direct braking action. Teflon-lined & DOT-approved for street use. Made in USA.
